

Hi, I'm Tamim Hasan — a certified ScrumMaster®, tech innovator, and community-driven leader passionate about turning data and empathy into real-world impact.

From majoring in Machine Learning during my **Bachelor of Computer Science (Magna Cum Laude)** to graduating with distinction in my Master's (GPA 6.75/7.0) at Federation University, I've built solutions that matter — like a VR experience for anti-vaping awareness (commended by the Executive Dean), predictive analytics for EV adoption, and heart disease detection apps powered by AI.

Recognized with **three Federation Advantage Awards** and selected to represent FedUni at TEQSA 2024, I've grown from a student leader to **Chair of the Student Senate**, contributing to university strategy, equity, and innovation.

Beyond the screen, I've served as a **Student Residential Advisor**, blog writer, and campaign ambassador. I've volunteered across communities — from **RISE Crew** to **BARS, Salvation Army** to **BRMC** — and contributed to **Ballarat's Business Awards** through local engagement.

Whether leading sprints, writing code, analyzing data, or uplifting voices — I build with purpose, lead with empathy, and never stop learning.

Key Projects

I've worked on more than 15 projects. Explore my top key projects below, where you'll find all the details. Simply click on the project names to learn more.

ABOUT THE AUTHOR

Tamim

Tamim Hasan completed his Bachelor's degree in Computer Science and became a Computer Science Engineer in 2022. He gained hands-on experience during his internship as a Junior Software Engineer at a software IT firm. In 2023, Tamim moved to Australia to pursue his Master's degree, which he completed with commendation from the Dean.

Alongside his studies, Tamim worked in various roles, including receptionist, building attendant, salesperson, residential advisor, wait staff, and customer service assistant. With over two years of customer service experience, Tamim has developed strong communication and problem-solving skills, which he continues to apply across his work and studies.

Personal Interests and Hobbies

Outside of my professional and academic life, I'm passionate about sports, photography, and exploring new cultures through travel. I enjoy meeting new people and making lasting friendships, which helps me build strong connections both personally and professionally. I'm also a big fan of movies and music, finding inspiration in both. Volunteering for causes that make a positive impact is important to me, as it allows me to give

back to the community and grow as an individual. These activities not only bring me joy but also shape my ability to connect with others, collaborate, and approach challenges with a fresh perspective.
